Career Objective

Motivated and detail-oriented graduate seeking a Business Operations Intern / Full-Time role at Phyllo, where I can apply my Python and SQL skills to support Brand Safety, Background Verification (BGV), and screening processes. Eager to contribute to data-driven risk analysis, compliance workflows, and operational efficiency while continuously learning and adding value to the organization.

Professional Experience

VANDHANA INTERNATIONAL PVT LTD, New Delhi

Jul 2021 – Jun 2023

Technical Supervisor – Rail Systems

Tools: Excel, SQL, Power BI, RailPro, Minipro

- Operated RailPro software to collect, clean, and analyze wheel-profile data. Improved predictive maintenance and track-performance accuracy.
- Coordinated field data collection using Minipro equipment and ensured seamless integration with RailPro for automated processing and reporting.

CYMBELINE INNOVATION PVT LTD

Aug 2025 – Dec 2025

DevOps trainee

Tools: EC2, S3, APIs, Linux, WSL, GIT, VPC, IAM.

- Set up a cloud-based web hosting environment on AWS using an Ubuntu EC2 instance and configured the NGINX web server to host a static website
- Created a custom Amazon Machine Image (AMI) from the configured EC2 instance to reuse the same setup for quickly launching new instances.
- Gained hands-on experience with ASG, AMI creation, Linux configuration, and basic cloud infrastructure concepts.

Education

Srinivas University Institute of Engineering & Technology, Mukka, Mangaluru

2023 – 2026

B.Tech. in Computer Science (upto 7th sem)

CGPA: 8.32

Nettur Technical Training Foundation

2018 – 2021

Diploma in Mechatronics

CGPA: 7.39

Technical Skills

Languages: Python, SQL

Tools: EC2, IAM, S3, AWS, GPC.

Frameworks / Tools: Git, GitHub, VS Code.

Projects

Ecommerce Website Deployment – Full-Stack Cloud Infrastructure | *Python, JavaScript, ETL, MongoDB* 2025

- Deployed a production-grade ecommerce web application using Docker and AWS EBL with secure, scalable architecture.
- Applied DevOps best practices including security hardening, performance tuning, and infrastructure monitoring

AI Document Verification System | *Python, JavaScript, API, ML*

Ongoing

- Developing an end-to-end document verification system with Jupyter-based experimentation and a backend API for processing and validation. Implemented data preprocessing, feature extraction, and integrated the verification logic into API-driven responses.

Achievements & Certifications

- **GCP Arcade / Qwiklabs Certificates (2025):** Hands-on labs with BigQuery, Cloud SQL, Vertex AI, IAM, Cloud Pub/Sub, Compute Engine, and Cloud Storage.
- **OCI AI Foundations — Oracle (2024):** Completed foundational training in AI and ML concepts under Oracle Cloud Infrastructure.
- **ISRO Certificate (2025):** Python & Machine Learning; Deloitte Technology (2025); AWS Cloud and Postman API training.
- **Metro Rail Deployment:** Successfully installed and commissioned heavy metro equipment (SRGM, Pit jack Metro, RGM) during rail-system deployments.

Additional Information

- **Languages:** Kannada, English, Hindi.
- **Soft Skills:** Problem solving, critical thinking, report building, teamwork.
